Topsfield, Mass.

Speaking of apples, we've been sipping **TrueBlue Blueberry** juice all week and the stuff is fabulous.

To make a long story short, **Jill Klosowski** a marketing specialist from Vancouver, B.C., dropped by with a couple of bags of these products, some juices pure blueberry and others with cranberry and pomegranate mixed in. Klosowski was in Boston promoting the product at the National Women's Show. She managed to find her way to Topsfield and our office to drop off some product for us to sample. We told her we would be searching the grocery shelves for this healthy new product not to be able to run any free advertising about it. However, how can we resist not letting everyone know about such a great drink. And psst, by the way, we heard it's on the shelves at Shaw's.
